A unique employee engagement opportunity

HOST A SPEAKER

Give your employees powerful, behind-the-headlines testimonies and insights from the lifesaving work of Doctors Without Borders/Médecins Sans Frontières (MSF), a leading medical humanitarian organization.

An engagement opportunity tailored to your organization:

We can build a customized virtual event designed to fit into your work day and inspire your staff.

MSF speakers have worked at the forefront of the world’s most challenging humanitarian crises:

They are doctors, nurses, midwives, mental health specialists, and logisticians. Hear their stories of preventing malaria and malnutrition, caring for refugees, providing maternal health care, and stopping the spread of COVID-19 in 2020.

Let’s build this opportunity together:

- Find a speaker, date and topic that work for you.
- We’ll provide graphics and assets to advertise the event internally.
- Our speaker will join the session on your preferred virtual platform.

MSF aid workers have already made an impact at other organizations, earning rave reviews:

“"This was an amazing session, eye-opening and putting everything in perspective. It should almost have been mandatory for all employees!”

“Great presentation today - their passion and heart could be felt and I feel privileged to have had this opportunity.”
